

Доступ к устройству через VPN

Если сеть VPN совпадает с диапазоном внутренней сети маршрутизатора, то доступ для управления через VPN будет заблокирован. Исправляем:

IP-Firewall-Filter Rule

The screenshot shows the 'Firewall Rule' configuration window with the 'General' tab selected. The 'Chain' is set to 'input'. The 'In. Interface' is set to 'all ppp'. The 'Action' tab is also visible, showing 'action=accept'. The 'Log' checkbox is checked. The 'Log Prefix' is empty. The 'Reset Counters' and 'Reset All Counters' buttons are visible on the right side of the window.

General	Advanced	Extra	Action	Statistics
Chain: input	Src. Address:	Dst. Address:	Protocol:	Src. Port:
				Dst. Port:
				Any. Port:
In. Interface: all ppp	Out. Interface:	In. Interface List:	Out. Interface List:	

Терминал:

```
/ip firewall add chain=input action=accept in-interface=all-ppp log=no log-prefix=""
```
